HIV testing determines if a person has acquired HIV (human immunodeficiency virus).

HIV is the virus that causes acquired immunodeficiency syndrome (AIDS). AIDS is the most advanced stage of HIV infection. The Centers for Disease Control and Prevention (CDC)

recommends that everyone 13 to 64 years of age get tested for HIV at least once as part of routine health care. Generally, people at higher risk for HIV should get tested each year.

Report on the event: The program was started at 10 am. Following that, **Ms.Jamunarani,** RRC Coordinator, welcomed the gathering and initiate the programme. The Pondicherry AIDS Control Society through Red Ribbon Club conducted an Integrated Health Testing Camp for the screening of HIV & VDRL. The screening was carried out by a team of three members (one counselor and two technicians) from the ART centre, PACS. A total of 303 from Teaching staffs, Non-Teaching staffs and Students were signed the consent form and got tested. This testing revealed that all of the students and staffs tested negative for HIV-AIDS.

Overall program was conducted under the Guidance of Principal **Prof. Dr. Malliga Kannan and Prof. Dr. Rajeswari. R,** Vice principal cum IQAC Co-ordinator. The program successfully ended at 4.30 pm with the feedback session**. Prof.Jamunarani. G,** RRC Coordinator, coordinated the program, along with **Ms.Gunasakthi,** Assistant RRC coordinator.

Conclusion: At the end of the Programme, Feedback was analyzed and interpreted as excellent, good, and fair organization of the programme. Out of 303 Beneficiaries, 300 of them expressed as excellent organization and remaining 3 had revealed as good organization of the programme.

To
The Director, Higher & Technical Education, Puducherry.

Sir,

Sub: SVEEP – Electoral Literacy Club – Democracy Rooms – Conduct of Activities - Reg.

***

I am to inform that, the Election Commission of India ECI has signed a MoU with the Ministry of Education, to bring in electoral literacy to Classrooms across the country, thereby integrating voter education and electoral literacy into their curricular framework.

One salient feature of the MoU is to designate one of the rooms in the Colleges as the 'Democracy Room' for the regular display of voter education materials and the conduct of Continuous Electoral and Democracy Education (CEDE) activities throughout the year.

To impart electoral and democracy education in the upcoming General Elections to the Lok Sabha 2024, the Elections Department has come up with CEDE Learning Module, with a focus on

- informed Voting (#மெய்ப்பொருள் - Combating Misinformation),
- Disability etiquette sensitisation and
- Sustainable elections.

In this connection, a training session was organised with the Nodal Officers of all the ELCs in Puducherry Region on 22.03.2024 and training on CEDE learning module was imparted. Detailed guidelines to the college Nodal Officers are enclosed herewith. I am to request that the Heads of Institutions shall be advised to instruct the Nodal Officers to follow the guidelines scrupulously and to report to the O/o CEO, Puducherry in the prescribed format enclosed.

Your cooperation is solicited in implementing these guidelines. Let us join hands towards nurturing informed Voters.
This issues with the approval of the Chief Electoral Officer.

Yours faithfully,

(M.ADHARSH)
DY. CHIEF ELECTORAL OFFICER

All the videos where include the content of Water can create peace or spark conflict. When water is scarce or polluted, or when people have unequal, or no access, tensions can rise between communities and countries. More than 3 billion people worldwide depend on water that crosses

national borders. Yet, only 24 countries have cooperation agreements for all their shared water. As climate change impacts increase, and populations grow, there is an urgent need, within and between countries, to unite around protecting and conserving our most precious resource. Public health and prosperity, food and energy systems, economic productivity and environmental integrity all rely on a well-functioning and equitably managed water cycle.
