## INNOVATION ECOSYSTEM

Indirani College of Nursing has initiated the **Institutional Innovation Council (IIC)** to inculcate the research culture among the students and encourage novel thinking. The IIC continuously organises various programmes and guest lecturers to stimulate the critical thinking of the students. The IIC of our institution has scored one star for the preceding year 2021. This platform provides an opportunity for expression of deep-rooted ideas and enhances the interaction between the students and research experts.

The college has created Intellectual Property Rights cell (IPR) to organize the various programs for sensitization patterns and rights among the students and faculty members. The faculty members are empowered to take up research activities by exploiting the inherent skills

The academic and research expertise of the college continually contribute to the innovation ecosystem through breakthrough solutions and suggestions for solving critical problems, and motivating students to become effective researchers. College has taken initiative steps towards developing an ecosystem for innovations and knowledge sharing methods by periodically arranging workshops, seminars, national and international conferences related to the research.

The college has promoted the research outlook among the students and faculties by presenting the journal papers, research critiques, panel discussion, symposium and discussion on paper / project presentations.

The college motivates the student and faculty members by extending scopes to explore their new ideas in the field of research and development. It also helps to create a research culture among faculty members and students by providing advanced library facilities which includes dissertations, projects, national and international journals, e – journals and DELNET. The college has computers with WI-FI facilities to carry out the research activities.

The college has a parent hospital, also affiliated with various multi speciality hospitals, industries and community areas for transferring theoretical knowledge into practice. The college has also motivated the students to do research activities in the various specialities of

clinical setting such as Medical, Surgical, Ortho, ENT, Eye, Obstetrics and Gynecology, and Psychiatric unit respectively.

The college motivates and supports the students to render the various health related activities in the adopted villages. The activities rendered by the students are Mass health education, School health education, creating awareness on promotion of health by Exhibition, Rally, Human Chain and Role play. The students are motivated to do the research in various aspects of community issues and make the students prepare posters, exhibits to transfer the knowledge on recent issues.

The college has Institutional Research Committee (IRC) to achieve outstanding scientific research in various areas of nursing and to make the institution a leading hub for innovative and collaborative research. The IRC will monitor the research activities of faculty and students.

The college has created an ecosystem for the graduate students to explore their new ideas and sharing of knowledge with other likeminded in their areas of interest. Students with creative ideas, approach the specialized teachers who are guiding them in their work. The institution offers financial assistance and motivates the faculty and students to publish their research work in the national and international reputed journals.

Institution has faculty exchange programme with Vinayaka Mission College of Nursing, Puducherry for conducting college collaborative research programmes. The institution has also signed an MOU with national centres for academic and research activities.
