# DEMONSTRATION

## ADVANTAGES OF DEMONSTRATION:

- Activates several senses.
  - Uses all the teaching approaches like telling, participating, interesting and reinforcing.
  - Motivation to learn.
- 

- Improves physical and cognitive level.
  - In return demonstration, the students is learning by doing.
  - Helps the student to learn the lesson better.
  - Correlates theory in to practice.
  - Commands interest
  - Best method for students due to the stage of cognitive development.
  - It fosters creative thinking.
- 

# **DISADVANTAGES OF DEMONSTRATION:**

- ❖ Demands energy, time and skill.
  - ❖ Poor demonstration yields poor learning.
  - ❖ Demands the same condition where the skill is to be performed.
- 

- Demands interest, motivation and knowledge.
  - Does not cover all aspects of cognitive learning.
  - Oral discussion may not be encouraged.
- 

# THANK YOU
